

Global Long/Short Equity Fund

OBJECTIVES AND PROCESS

- Seeks long-term capital appreciation whilst preserving capital in down markets.
- Employs a strategy of gaining long and short exposure in equity securities of issuers in developed markets (countries in the MSCI World Index).
- Uses a quantitative investment process to evaluate multiple fundamental, statistical and technical characteristics covering valuation, growth, return history, risk liquidity and economic sensitivity.
- The fund may invest:
 - in no fewer than three countries
 - at least two-thirds of its total assets in equity securities of companies located worldwide
 - long equity exposure of up to 100% of fund net assets
 - short equity exposure of up to 50% of fund net assets
 - by using futures/derivatives for hedging or efficient portfolio management purposes

KEY RISKS

Market risk: securities may decline in value due to factors affecting securities markets generally, and equity securities generally have greater price volatility than debt securities.

Smaller company securities risk: securities of companies with smaller market capitalisations tend to be more volatile and less liquid than securities of larger companies. **Global**

investment risk: securities of certain jurisdictions may experience more rapid and extreme changes in value and may be affected by uncertainties such as international political developments, currency fluctuations and other developments in the laws and regulations of countries in which an investment may be made.

Derivatives risk: the use of derivatives presents risks different from, and possibly greater than, the risks associated with investing directly in traditional securities. The use of derivatives can lead to losses because of adverse movements in the price or value of the underlying asset, index or rate, which may be magnified by certain features of the derivatives.

Calendar-year performance (%)

Past performance is not indicative of future results.

	2023	2022	2021	2020	2019	2018
Class IP (USD) (31 Jul 2017)*	4.36	-4.52	17.72	1.85	7.89	-9.06
Benchmark ¹	14.50	-7.91	10.63	8.91	14.56	-3.12

Performance (%)

	Annualized							
	1 Month	3 Months	Year to date	1 Year	3 Year	5 Year	10 Year	Since incep.
Class IP (USD) (31 Jul 2017)*	-2.43	4.24	6.05	12.13	4.46	4.89	—	4.14

Past performance is not indicative of future results. Performance calculations are net of all applicable fees and are calculated on a NAV-to-NAV basis (with income re-invested). Performance shown is for class and currency indicated and returns may increase/decrease as a result of currency fluctuations. *Share class inception date.

Investors should note that, relative to the expectations of the Autorité des Marchés Financiers, this fund presents disproportionate communication on the consideration of non-financial criteria in its investment policy.

1. The fund's performance benchmark is 50% MSCI World / 50% ICE BofA US 3-Month Treasury Bill and based on the Fund's targeted 50% less volatility than the MSCI World. Prior to 1 May 2023 the performance benchmark was 50% MSCI World / 50% 3-Month LIBOR. The Morgan Stanley Capital International (MSCI) World Index is a free float-adjusted market-capitalisation-weighted index that is designed to measure the equity market performance of developed markets. You cannot invest directly in an index. The ICE BofA U.S. 3-Month Treasury Bill Index is a measure of performance of Treasury bills with a remaining term to final maturity of less than 91 days. Treasury bills are guaranteed by the U.S. government and, if held to maturity, offer a fixed rate of return and fixed principal value. Copyright 2023. ICE Data Indices, LLC. All rights reserved. You cannot invest directly in an index. The Fund uses the MSCI World Index as a reference for selecting investments and a composite of 50% of the MSCI World Index plus 50% of the ICE BofA US 3-Month Treasury Bill Index for calculating the performance fee and for performance comparison. The investments of the Sub-Fund may deviate significantly from the components of and their respective weightings in the benchmarks.

Article 6²

Performance fee %*

Class IP (USD): 20%

Class IP (EUR): 20%

Class IP (GBP): 20%

Class AP (USD): 20%

*The Performance Fee is equal to 20% of the appreciation of the Net Asset Value per Share (prior to the deduction of the Performance Fee) at the end of each fiscal year when the Net Asset Value per Share exceeds the high watermark after deduction of the hurdle rate. The high watermark is the highest end of fiscal year Net Asset Value per Share for the relevant Class since inception of the Fund when a performance fee was paid. The hurdle rate applied is 50% MSCI World (Net) (USD) / 50% 3M T-Bill (USD). Please refer to the prospectus for further details.

⁴While the Sub-Funds listed above have access to both internal and external ESG research and integrate financially material sustainability risks into their investment decision-making processes, ESG-related factors are considered but not determinative, permitting the relevant Sub-Investment Managers to invest in issuers that do not embrace ESG; as such, sustainability risks may have a more material impact on the value of the Sub-Fund's investments in the medium to long term. The investments underlying these Sub-Funds do not take into account the EU criteria for environmentally sustainable economic activities.
