**ANDREW OWEN**

President
Allspring Funds

Dear Shareholder:

We are pleased to offer you this annual report for the Allspring Global Long/Short Equity Fund for the 12-month period that ended October 31, 2023. Globally, stocks and bonds experienced high levels of volatility through the period. The market was focused on persistently high inflation and the impact of ongoing aggressive central bank rate hikes. Compounding these concerns were the global reverberations of the Russia-Ukraine war. Riskier assets rallied in 2023, as investors anticipated an end to the tight monetary policy despite concerns of a possible impending recession. After suffering deep and broad losses through 2022, bonds now benefit from a base of higher yields that can help generate higher income. However, ongoing rate hikes continued to be a headwind during recent months.

For the 12-month period, stocks generally outperformed bonds—both domestic U.S. and global. For the period, U.S. stocks, based on the S&P 500 Index,¹ gained 10.14%. International stocks, as measured by the MSCI ACWI ex USA Index (Net),² returned 12.07%, while the MSCI EM Index (Net) (USD)³ had more modest performance, with a gain of 10.80%. Among bond indexes, the Bloomberg U.S. Aggregate Bond Index⁴ returned 0.36%, the Bloomberg Global Aggregate ex-USD Index (unhedged)⁵ gained 2.59%, the Bloomberg Municipal Bond Index⁶ gained 2.64%, and the ICE BofA U.S. High Yield Index⁷ returned 5.90%.

Despite high inflation and central bank rate hikes, markets rallied.

As the 12-month period began, stocks and bonds rallied in November. Economic news was encouraging, driven by U.S. labor market strength. Although central banks kept increasing rates, hopes rose for an easing in the pace of rate hikes and a possible end to central bank monetary tightening in 2023. While inflation remained at record highs in the eurozone, we began to see signs of a possible decline in inflationary pressures as U.S. inflation moderated. China's economic data remained weak, reflecting its zero-COVID-19 policy.

Financial markets cooled in December, with U.S. equities declining overall in response to a weakening U.S. dollar. Fixed income securities ended one of their worst years ever, with generally flat monthly returns as markets weighed the hopes for an end to the monetary tightening cycle with the reality that central banks had not completed their jobs yet. U.S. Consumer Price Index (CPI)⁸ data showed a strong consistent trend downward, which brought down the 12-month CPI to 6.5% in December from 9.1% in June. Other countries and regions reported still-high but declining inflation rates as the year wound down.

¹ The S&P 500 Index consists of 500 stocks chosen for market size, liquidity, and industry group representation. It is a market-value-weighted index with each stock's weight in the index proportionate to its market value. You cannot invest directly in an index.

² The Morgan Stanley Capital International (MSCI) All Country World Index (ACWI) ex USA Index (Net) is a free-float-adjusted market-capitalization-weighted index that is designed to measure the equity market performance of developed and emerging markets, excluding the U.S. Source: MSCI. MSCI makes no express or implied warranties or representations and shall have no liability whatsoever with respect to any MSCI data contained herein. The MSCI data may not be further redistributed or used as a basis for other indexes or any securities or financial products. This report is not approved, reviewed, or produced by MSCI. You cannot invest directly in an index.

³ The MSCI Emerging Markets (EM) Index (Net) (USD) is a free-float-adjusted market-capitalization-weighted index that is designed to measure the equity market performance of emerging markets. You cannot invest directly in an index.

⁴ The Bloomberg U.S. Aggregate Bond Index is a broad-based benchmark that measures the investment-grade, U.S.-dollar-denominated, fixed-rate taxable bond market, including Treasuries, government-related and corporate securities, mortgage-backed securities (agency fixed-rate and hybrid adjustable-rate mortgage pass-throughs), asset-backed securities, and commercial mortgage-backed securities. You cannot invest directly in an index.

⁵ The Bloomberg Global Aggregate ex-USD Index (unhedged) is an unmanaged index that provides a broad-based measure of the global investment-grade fixed-income markets excluding the U.S.-dollar-denominated debt market. You cannot invest directly in an index.

⁶ The Bloomberg Municipal Bond Index is an unmanaged index composed of long-term tax-exempt bonds with a minimum credit rating of Baa. You cannot invest directly in an index.

⁷ The ICE BofA U.S. High Yield Index is a market-capitalization-weighted index of domestic and Yankee high yield bonds. The index tracks the performance of high yield securities traded in the U.S. bond market. You cannot invest directly in an index. Copyright 2023. ICE Data Indices, LLC. All rights reserved.

⁸ The U.S. Consumer Price Index (CPI) is a measure of the average change over time in the prices paid by urban consumers for a market basket of consumer goods and services. You cannot invest directly in an index.

The year 2023 began with a rally across global equities and fixed income securities. Investor optimism rose in response to data indicating declining inflation rates and the reopening of China's economy with the abrupt end to its zero-COVID-19 policy. The U.S. reported strong job gains and unemployment fell to 3.4%—the lowest level since 1969. Meanwhile, wage growth, seen as a potential contributor to ongoing high inflation, continued to moderate. All eyes remained on the Federal Reserve (Fed) and on how many more rate hikes remain in this tightening cycle. The 0.25% federal funds rate hike announced in January was the Fed's smallest rate increase since March 2022.

Markets declined in February as investors responded unfavorably to resilient economic data. The takeaway: Central banks would likely continue their monetary tightening cycle for longer than markets had priced in. In this environment—where strong economic data is seen as bad news—the resilient U.S. labor market was taken as a negative, with inflation not falling quickly enough for the Fed, which raised interest rates by 0.25% in February. Meanwhile, the Bank of England (BoE) and the European Central Bank (ECB) both raised rates by 0.50%.

The collapse of Silicon Valley Bank in March—the second-largest banking failure in U.S. history—led to a bank run that spread to Europe, where Switzerland's Credit Suisse was taken over by its rival, UBS. The banking industry turmoil created an additional challenge for central banks in balancing inflationary concerns against potential economic weakening. Meanwhile, other data in March pointed to economic strength in the U.S., Europe, and China. China's economy continued to rebound after the removal of its COVID-19 lockdown. Inflation rates in the U.S., the U.K., and the eurozone all remained higher than central bank targets, leading to additional rate hikes in March.

Economic data released in April pointed to global resilience, as Purchasing Managers Indexes¹ in the U.S., U.K., and eurozone beat expectations and China reported first-quarter annualized economic growth of 4.5%. Despite banking industry stress, developed market stocks had monthly gains. The U.S. labor market remained strong, with a 3.5% jobless rate and monthly payroll gains above 200,000. However, uncertainty and inflationary concerns weighed on investors in the U.S. and abroad.

May was marked by a divergence between expanding activity in services and an overall contraction in manufacturing activity in the U.S., U.K., and eurozone. Core inflation remained elevated in the U.S. and Europe, despite the ongoing efforts of the Fed and the ECB, which included rate hikes of 0.25% by both in May. Stubborn inflation and the resilient U.S. labor market led to expectations of further interest rate hikes, overall monthly declines across bond indexes, and mixed results for stocks in May. Investor worries over a U.S. debt ceiling impasse were modest, and market confidence was buoyed by a deal in late May to avert a potential U.S. debt default.

June featured the Fed's first pause on interest rate hikes since March 2022, when it began its aggressive campaign to rein in inflation. However, Core CPI², while continuing to decline, remained stubbornly high in June at 4.8%, well above the Fed's 2.0% target rate. With the U.S. unemployment rate still at 3.6%, near a historical low, and U.S. payrolls growing in June for the 30th consecutive month, expectations of more Fed rate hikes were reinforced. However, U.S. and global stocks had strong returns in June.

“ The collapse of Silicon Valley Bank in March—the second-largest banking failure in U.S. history—led to a bank run that spread to Europe, where Switzerland's Credit Suisse was taken over by its rival, UBS. ”

¹ The Purchasing Managers Index (PMI) is an index of the prevailing direction of economic trends in the manufacturing and service sectors. You cannot invest directly in an index.

² The Core CPI is a measure of the average change over time in the prices paid by urban consumers for a market basket of consumer goods and services excluding energy and food prices. You cannot invest directly in an index.

“ With strong second-quarter gross domestic product(GDP) growth—initially estimated at 2.4%—and U.S. annual inflation easing steadily to 3.2% in July, hopes for a soft economic landing grew. ”

July was a good month for stocks. However, bonds had more muted but positive monthly returns overall. Riskier sectors and regions tended to do well, as investors grew more optimistic regarding economic prospects. With strong second-quarter gross domestic product (GDP) growth—initially estimated at 2.4%—and U.S. annual inflation easing steadily to 3.2% in July, hopes for a soft economic landing grew. The Fed, the ECB, and the BoE all raised their respective key interest rates by 0.25% in July. In the Fed’s case, speculation grew that it could be very close to the end of its tightening cycle. Meanwhile, China’s economy showed signs of stagnation, renewing concerns of global fallout.

Stocks retreated in August while monthly bond returns were flat overall. Increased global market volatility reflected unease over the Chinese property market being stressed along with weak Chinese economic data. On a more positive note, speculation grew over a possible end to the Fed’s campaign of interest rate increases or at least a pause in September. U.S. economic data generally remained solid, with resilient job market data and inflation ticking up slightly in August, as the annual CPI rose 3.7%. However, the three-month trend for core CPI stood at a more encouraging annualized 2.4%.

Stocks and bonds both had negative overall returns in September as investors reluctantly recited the new chorus of “higher for longer,” led by the Fed’s determination not to lower interest rates until it knows it has vanquished its pesky opponent—higher-than-targeted inflation. As of September, the two primary gauges of U.S. inflation—the annual Core Personal Consumption Expenditures Price Index¹ and the CPI—both stood at roughly 4%, twice as high as the Fed’s oft-stated 2% target. The month ended with the prospect of yet another U.S. government shutdown, averted at least temporarily but looming later this fall.

October was a tough month for stocks and bonds. Key global and domestic indexes all were pushed down by rising geopolitical tensions, particularly the Israel-Hamas conflict, and concerns over the Fed’s “higher for longer” monetary policy. The U.S. 10-year Treasury yield rose above 5% for the first time since 2007. Commodity prices did well as oil prices rallied in response to the prospect of oil supply disruptions from the Middle East. U.S. annualized third-quarter GDP was estimated at a healthier-than-anticipated 4.9%. China’s GDP indicated surprisingly strong industrial production and retail sales, offset by ongoing weakness in its real estate sector.

Don’t let short-term uncertainty derail long-term investment goals.

Periods of investment uncertainty can present challenges, but experience has taught us that maintaining long-term investment goals can be an effective way to plan for the future. To help you create a sound strategy based on your personal goals and risk tolerance, Allspring Funds offers more than 100 mutual funds spanning a wide range of asset classes and investment styles. Although diversification cannot guarantee an investment profit or prevent losses, we believe it can be an effective way to manage investment risk and potentially smooth out overall portfolio performance. We encourage investors to know their investments and to understand that appropriate levels of risk-taking may unlock opportunities.

Thank you for choosing to invest with Allspring Funds. We appreciate your confidence in us and remain committed to helping you meet your financial needs.

Sincerely,

Andrew Owen
President
Allspring Funds

¹ The Core Personal Consumption Expenditures Price Index (PCE) is a measure of prices that people living in the United States, or those buying on their behalf, pay for goods and services. It is sometimes called the core PCE price index, because two categories that can have price swings – food and energy – are left out to make underlying inflation easier to see. You cannot invest directly in an index.

Notice to Shareholders

Beginning in July 2024, the Fund will be required by the Securities and Exchange Commission to send shareholders a paper copy of a new tailored shareholder report in place of the full shareholder report that you are now receiving. The tailored shareholder report will contain concise information about the Fund, including certain expense and performance information and fund statistics. If you wish to receive this new tailored shareholder report electronically, please follow the instructions on the back cover of this report.

Other information that is currently included in the shareholder report, such as the Fund's financial statements, will be available online and upon request, free of charge, in paper or electronic format.

Performance highlights

Investment objective The Fund seeks long-term capital appreciation.

Figures quoted represent past performance, which is no guarantee of future results, and do not reflect taxes that a shareholder may pay on an investment in a fund. Investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance shown without sales charges would be lower if sales charges were reflected. Current performance may be lower or higher than the performance data quoted, which assumes the reinvestment of dividends and capital gains. Current month-end performance is available on the Fund's website, allspringglobal.com.

Index returns do not include transaction costs associated with buying and selling securities, any mutual fund fees or expenses, or any taxes. It is not possible to invest directly in an index.

For Class A shares, the maximum front-end sales charge is 5.75%. For Class C shares, the maximum contingent deferred sales charge is 1.00%. Performance including a contingent deferred sales charge assumes the sales charge for the corresponding time period. Class R6 and Institutional Class shares are sold without a front-end sales charge or contingent deferred sales charge.

¹ Reflects the expense ratios as stated in the most recent prospectuses. The expense ratios shown are subject to change and may differ from the annualized expense ratios shown in the Financial Highlights of this report.

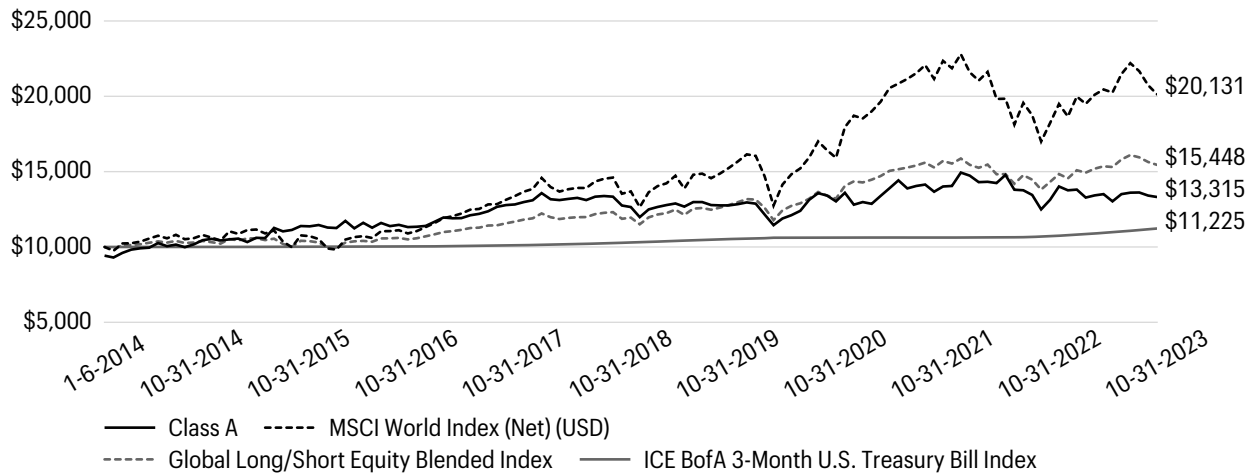

² The manager has contractually committed through February 28, 2025, to waive fees and/or reimburse expenses to the extent necessary to cap total annual fund operating expenses after fee waivers at 1.72% for Class A, 2.47% for Class C, 1.30% for Class R6 and 1.40% for Institutional Class. Brokerage commissions, stamp duty fees, interest, taxes, acquired fund fees and expenses (if any), expenses from dividends and interest on short positions, and extraordinary expenses are excluded from the expense caps. Prior to or after the commitment expiration date, the caps may be increased or the commitment to maintain the caps may be terminated only with the approval of the Board of Trustees. Without these caps, the Fund's returns would have been lower. The expense ratio paid by an investor is the net expense ratio (the total annual fund operating expenses after fee waivers) as stated in the prospectuses.

³ Historical performance shown for the Class A shares prior to December 16, 2022, is based on the performance of the Investor Class shares of the Fund's predecessor, 361 Global Long/Short Equity Fund (the "Predecessor Fund"), and for the period prior to December 12, 2014, is based on the performance of a predecessor account, the Analytic Global Long/Short Equity Fund, L.P., a limited partnership incepted on January 6, 2014 that was reorganized into the Predecessor Fund on December 12, 2014 (the "Predecessor Account"). Performance of the Predecessor Account reflects the higher expenses applicable to it and returns would have been higher if adjusted to reflect Predecessor Fund expenses. The Predecessor Account was not registered under the Investment Company Act of 1940 (the "1940 Act"), and was not subject to certain restrictions imposed by the 1940 Act. If the Predecessor Account had been registered under the 1940 Act, performance may have been adversely affected.

⁴ Historical performance for the Class C shares prior to their inception reflects the performance of the Class A shares and is not adjusted to reflect the higher expenses applicable to the Class C shares. If these expenses had been included, returns would be lower.

⁵ Historical performance shown for the Class R6 shares prior to December 16, 2022 is based on the performance of Class Y shares of the Fund's predecessor, 361 Global Long/Short Equity Fund (the "Predecessor Fund"), and for the period prior to December 12, 2014, is based on the performance of a predecessor account, the Analytic Global Long/Short Equity Fund, L.P., a limited partnership incepted on January 6, 2014 that was reorganized into the Predecessor Fund on December 12, 2014 (the "Predecessor Account"). Performance of the Predecessor Account reflects the higher expenses applicable to it and returns would have been higher if adjusted to reflect Predecessor Fund expenses. The Predecessor Account was not registered under the Investment Company Act of 1940 (the "1940 Act"), and was not subject to certain restrictions imposed by the 1940 Act. If the Predecessor Account had been registered under the 1940 Act, performance may have been adversely affected.

GROWTH OF \$10,000 INVESTMENT AS OF OCTOBER 31, 2023¹

¹ The chart compares the performance of Class A shares since January 6, 2014 with the MSCI World Index (Net) (USD), Global Long/Short Equity Blended Index and ICE BofA 3-Month U.S. Treasury Bill Index. The chart assumes a hypothetical investment of \$10,000 in Class A shares and reflects all operating expenses and assumes the maximum initial sales charge of 5.75%.

Footnotes continued from previous page

⁶ Historical performance shown for the Institutional Class shares prior to December 16, 2022, is based on the performance of Class I shares of the Fund's predecessor, 361 Global Long/Short Equity Fund (the "Predecessor Fund"), and for the period prior to December 12, 2014, is based on the performance of a predecessor account, the Analytic Global Long/Short Equity Fund, L.P., a limited partnership incepted on January 6, 2014 that was reorganized into the Predecessor Fund on December 12, 2014 (the "Predecessor Account"). Performance of the Predecessor Account reflects the higher expenses applicable to it and returns would have been higher if adjusted to reflect Predecessor Fund expenses. The Predecessor Account was not registered under the Investment Company Act of 1940 (the "1940 Act") and was not subject to certain restrictions imposed by the 1940 Act. If the Predecessor Account had been registered under the 1940 Act, performance may have been adversely affected.

Investing involves risk, including the possible loss of principal. Stock values fluctuate in response to the activities of individual companies and general market and economic conditions. Foreign investments are especially volatile and can rise or fall dramatically due to differences in the political and economic conditions of the host country. Short selling is generally considered speculative, has the potential for unlimited loss, and may involve leverage. Consult the Fund's prospectus for additional information on these and other risks.

MANAGER'S DISCUSSION

Fund highlights

- The Fund underperformed its benchmark, the MSCI World Index (Net) (USD), for the 12-month period that ended October 31, 2023.
- Overall factor positioning added to performance, but this was overshadowed by the Fund's risk-averse positioning and its underweight to mega-cap securities during this largely risk-on period.
- The Fund's underperformance was primarily caused by the Fund's risk positioning, driven by our core objective to reduce volatility. The Fund is meaningfully underweight the equity market and it holds a short position in high-beta (more volatile) securities. Both of these performed particularly well during this 12-month period.

Global stocks delivered strong results during the period.

After one last episode of severe volatility late in the third quarter of 2022, global equity markets made a great display of strength for three consecutive quarters as investors appeared to have shaken the uncertainty associated with the rising rate cycle that has occurred over the past 12 months. Equity markets showed renewed optimism in valuations, along with mitigated concerns over inflation and rising rates. However, this was met with an uptick in volatility and market sell-off following the market peak on July 31, 2023. The decline continued into the fall, bringing the year-to-date return of the MSCI World Index (Net) (USD) to 7.88% and its one-year return to 10.48%. Information technology (+30%), communication services (+28%), and consumer discretionary (+12%) were the best-performing sectors over the past year, while more interest-rate-sensitive sectors such as real estate (-5%) and health care (-2%) significantly underperformed the MSCI World Index (Net) (USD).

TEN LARGEST LONG POSITIONS (%) AS OF OCTOBER 31, 2023¹

Gilead Sciences, Inc.	2.87
Verizon Communications, Inc.	2.76
Kimberly-Clark Corp.	2.69
Apple, Inc.	2.47
CK Hutchison Holdings Ltd.	2.38
CVS Health Corp.	2.11
Chubu Electric Power Co., Inc.	1.93
Lockheed Martin Corp.	1.91
Alphabet, Inc. Class C	1.86
Alphabet, Inc. Class A	1.85

¹ Figures represent the percentage of the Fund's net assets. Holdings are subject to change and may have changed since the date specified.

Risk tilts favoring lower-volatility market segments detracted from performance along with an underweight to mega caps.

Over the period, factor tilts toward forward-looking earnings and book/price were the largest factor-focused contributors to performance. While the factor model positioning was favorable overall, it was largely overshadowed by the Fund's risk positioning. During the period, the highest-beta quintile of stocks in the MSCI World Index (Net) (USD) increased an average of 21% for the trailing 12 months, while the lowest-beta quintile increased 3%—an 18% difference. The Fund has a meaningful short position in the highest-beta securities, which was the largest detractor from performance as investors rewarded these riskier market

segments. In addition, performance was weakened by the Fund's underweight to mega-capitalization securities. The largest stocks in the MSCI World Index (Net) (USD) outperformed the index during the period and, generally, the smaller the company, the worse the return. The smallest quintile of stocks in the MSCI World Index (Net) (USD) increased an average of 4% for the trailing 12 months, while the largest quintile increased 26%—a 22% difference.

FIVE LARGEST SHORT POSITIONS (%) AS OF OCTOBER 31, 2023¹

Eisai Co. Ltd.	(1.24)
Airbus SE	(1.22)
Western Digital Corp.	(1.14)
Edenred SE	(1.12)
Cellnex Telecom SA	(1.03)

¹ Figures represent the percentage of the Fund's net assets. Holdings are subject to change and may have changed since the date specified.

Going forward, our investment philosophy and process remain the same.

The global long/short investment philosophy is to pursue reduced volatility and excess performance through a combination of the Systematic Edge equities team's dynamic return forecasting and hedging skills. While innovative quantitative research—such as identifying high prediction error securities via machine learning—is incorporated into the process on an ongoing basis, the core objectives of this portfolio have remained the same since inception.

SECTOR ALLOCATION FOR LONG AND SHORT POSITIONS AS OF OCTOBER 31, 2023¹

	LONG (%)	SHORT (%)
Industrials	18	(13)
Consumer staples	14	(1)
Health care	13	(17)
Information technology	12	(9)
Financials	11	(11)
Communication services	10	(15)
Consumer discretionary	9	(10)
Materials	5	(6)
Energy	3	(10)
Utilities	3	(3)
Real estate	2	(5)

¹ Figures represent the percentage of the Fund's long and short positions. Allocations are subject to change and may have changed since the date specified.

	LONG (%)	SHORT (%)
United States	60	(48)
Japan	9	(8)
Germany	6	(5)
United Kingdom	6	(3)
Canada	3	(5)
China & Hong Kong	3	0
France	2	(5)
Italy	2	(2)
Netherlands	2	(8)
Spain	2	(6)
Sweden	2	(4)
Australia	1	(1)
Denmark	1	(1)
Switzerland	1	0
Curacao	0	(3)
Luxembourg	0	(1)

¹ Figures represent the percentage of the Fund's long and short positions. Allocations are subject to change and may have changed since the date specified.

The hedge is created by shorting stocks with market risk (beta) significantly higher than the MSCI World Index (Net) (USD). The Systematic Edge equities team's research substantiates the anomaly that high-beta stocks tend to underperform the market in the long run. This hedge also has substantial volatility reduction benefits through shorting a segment of stocks that tend to fall the fastest during times of market distress. The argument in favor of low-beta issues remains intact, perhaps even more so after such a strong period of performance for high-beta issues over the previous 12 months. In the past, we have witnessed a strong tendency for mean reversion after such meaningful instances of high-beta outperformance.

The dynamic return forecasting component employed in our global/long short equity strategy is based on the belief that security returns are predictable based on common fundamental factors and that market inefficiencies caused by patterns of investor behavior and economic change may be exploited to earn an excess return. The idea that there is persistency in the types of characteristics investors prefer is exploited through a stock selection model that uses more than 30 fundamental, technical, and proprietary factors to build a diversified portfolio that we believe is well positioned to generate potential excess returns over a three-to five-year market cycle. As a result of the dynamic return forecasting, the equity portfolio has tended to have reasonable valuations, good quality, and decent price momentum. We continue to emphasize stocks with certain attractive valuation and quality characteristics such as above-average earnings/price ratios and return on assets.

Fund expenses

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase payments and contingent deferred sales charges (if any) on redemptions and (2) ongoing costs, including management fees, distribution (12b-1) and/or shareholder servicing fees, and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The example is based on an investment of \$1,000 invested at the beginning of the six-month period and held for the entire period from May 1, 2023 to October 31, 2023.

Actual expenses

The "Actual" line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the "Actual" line under the heading entitled "Expenses paid during period" for your applicable class of shares to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The "Hypothetical" line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads) and contingent deferred sales charges. Therefore, the "Hypothetical" line of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

	BEGINNING ACCOUNT VALUE 5-1-2023	ENDING ACCOUNT VALUE 10-31-2023	EXPENSES PAID DURING THE PERIOD ¹	ANNUALIZED NET EXPENSE RATIO
Class A				
Actual	\$ 1,000.00	\$ 985.77	\$12.46	2.49%
Hypothetical (5% return before expenses)	\$ 1,000.00	\$ 1,012.65	\$12.63	2.49%
Class C				
Actual	\$ 1,000.00	\$ 984.75	\$12.96	2.59%
Hypothetical (5% return before expenses)	\$ 1,000.00	\$ 1,012.15	\$13.14	2.59%
Class R6				
Actual	\$ 1,000.00	\$ 987.73	\$10.67	2.13%
Hypothetical (5% return before expenses)	\$ 1,000.00	\$ 1,014.47	\$10.82	2.13%
Institutional Class				
Actual	\$ 1,000.00	\$ 986.81	\$10.72	2.14%
Hypothetical (5% return before expenses)	\$ 1,000.00	\$ 1,014.42	\$10.87	2.14%

¹ Expenses paid is equal to the annualized net expense ratio of each class multiplied by the average account value over the period, multiplied by 184 divided by 365 (to reflect the one-half-year period).

144A The security may be resold in transactions exempt from registration, normally to qualified institutional buyers, pursuant to Rule 144A under the Securities Act of 1933.

All or a portion of this security is segregated as collateral for securities sold short.

† Non-income-earning security

◆ The security is fair valued in accordance with procedures approved by the Board of Trustees.

♣ The issuer of the security is an affiliated person of the Fund as defined in the Investment Company Act of 1940.

∞ The rate represents the 7-day annualized yield at period end.

Abbreviations:

REIT Real estate investment trust

Investments in affiliates

An affiliated investment is an investment in which the Fund owns at least 5% of the outstanding voting shares of the issuer or as a result of other relationships, such as the Fund and the issuer having the same investment manager. Transactions with issuers that were affiliates of the Fund at the end of the period were as follows:

	VALUE, BEGINNING OF PERIOD	PURCHASES	SALES PROCEEDS	NET REALIZED GAINS (LOSSES)	NET CHANGE IN UNREALIZED GAINS (LOSSES)	VALUE, END OF PERIOD	SHARES, END OF PERIOD	INCOME FROM AFFILIATED SECURITIES
Short-term investments

¹ For the year ended October 31, 2023, the Fund was audited by KPMG LLP. The previous years were audited by another independent registered public accounting firm.² After the close of business on December 16, 2022, the Fund acquired the net assets of 361 Global Long/Short Equity Fund, which became the accounting and performance survivor in the transaction. The information for the periods prior to December 16, 2022 is that of 361 Global Long/Short Equity Fund Class I.³ Calculated based upon average shares outstanding

Notes to financial statements

1. ORGANIZATION

Allspring Funds Trust (the “Trust”), a Delaware statutory trust organized on March 10, 1999, is an open-end management investment company registered under the Investment Company Act of 1940, as amended (the “1940 Act”). As an investment company, the Trust follows the accounting and reporting guidance in Financial Accounting Standards Board (“FASB”) Accounting Standards Codification Topic 946, *Financial Services – Investment Companies*. These financial statements report on the Allspring Global Long/Short Equity Fund (the “Fund”) which is a diversified series of the Trust.

After the close of business on December 16, 2022, the net assets of 361 Global Long/Short Equity Fund (the “Predecessor Fund”) were acquired by the Fund, which was created to receive the net assets of the Predecessor Fund, in an exchange for shares of the Fund. Investor Class, Class Y and Class I shares of the Predecessor Fund received Class A, Class R6 and Institutional Class shares, respectively, of the Fund in the transaction. Since the Predecessor Fund contributed all of the net assets and shareholders to the newly created Allspring fund, the accounting and performance history of the Predecessor Fund has been carried forward in the financial statements contained herein.

2. SIGNIFICANT ACCOUNTING POLICIES

The following significant accounting policies, which are consistently followed in the preparation of the financial statements of the Fund, are in conformity with U.S. generally accepted accounting principles which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Securities valuation

All investments are valued each business day as of the close of regular trading on the New York Stock Exchange (generally 4 p.m. Eastern Time), although the Fund may deviate from this calculation time under unusual or unexpected circumstances.

Equity securities and exchange-traded funds that are listed on a foreign or domestic exchange or market are valued at the official closing price or, if none, the last sales price.

The values of securities denominated in foreign currencies are translated into U.S. dollars at rates provided by an independent foreign currency pricing source at a time each business day specified by the Valuation Committee at Allspring Funds Management, LLC (“Allspring Funds Management”).

Many securities markets and exchanges outside the U.S. close prior to the close of the New York Stock Exchange and therefore may not fully reflect trading or events that occur after the close of the principal exchange in which the foreign securities are traded, but before the close of the New York Stock Exchange. If such trading or events are expected to materially affect the value of such securities, then fair value pricing procedures implemented by Allspring Funds Management are applied. These procedures take into account multiple factors including movements in U.S. securities markets after foreign exchanges close. Foreign securities that are fair valued under these procedures are categorized as Level 2 and the application of these procedures may result in transfers between Level 1 and Level 2. Depending on market activity, such fair valuations may be frequent. Such fair value pricing may result in net asset values that are higher or lower than net asset values based on the last reported sales price or latest quoted bid price. On October 31, 2023, such fair value pricing was used in pricing certain foreign securities.

Investments in registered open-end investment companies (other than those listed on a foreign or domestic exchange or market) are valued at net asset value.

Investments which are not valued using the methods discussed above are valued at their fair value, as determined in good faith by Allspring Funds Management, which was named the valuation designee by the Board of Trustees. As the valuation designee, Allspring Funds Management is responsible for day-to-day valuation activities for the Allspring Funds. In connection with these responsibilities, Allspring Funds Management has established a Valuation Committee and has delegated to it the authority to take any actions regarding the valuation of portfolio securities that the Valuation Committee deems necessary or appropriate, including determining the fair value of portfolio securities. On a quarterly basis, the Board of Trustees receives reports of valuation actions taken by the Valuation Committee. On at least an annual basis, the Board of Trustees receives an assessment of the adequacy and effectiveness of Allspring Funds Management’s process for determining the fair value of the portfolio of investments.

Foreign currency translation

The accounting records of the Fund are maintained in U.S. dollars. The values of other assets and liabilities denominated in foreign currencies are translated into U.S. dollars at rates provided by an independent foreign currency pricing source at a time each business day specified by the Valuation Committee. Purchases and sales of securities, and income and expenses are converted at the rate of exchange on the respective dates of such transactions. Net realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest and foreign withholding taxes recorded and the U.S. dollar equivalent of the amounts actually paid or received. Net unrealized foreign exchange gains and losses arise from changes in the fair value of assets and liabilities other than investments in securities resulting from changes in exchange rates. The changes in net assets arising from changes in exchange rates of securities and the changes in net assets resulting from changes in market prices of securities are not separately presented. Such changes are included in net realized and unrealized gains or losses from investments.

Short sales

The Fund may sell a security it does not own in anticipation of a decline in the market value of that security (short sale). When the Fund makes a short sale, it must borrow the security sold short and deliver it to the buyer. The Fund is then obligated to replace the security borrowed by purchasing the security at the market price at the time of replacement.

The Fund records the proceeds as a liability which is marked-to-market daily based upon quotations from an independent pricing service or an independent broker-dealer and any change in value is recorded as an unrealized gain or loss. Any interest or dividends accrued on such borrowed securities during the period of the loan are recorded as an expense on the Statement of Operations. To borrow the security, the Fund may be required to pay a premium, which would decrease the proceeds of the security sold. A gain, limited to the price at which the Fund sold the security short, or a loss, unlimited in size, will be recognized upon the closing of a short sale if the market price at the closing is less than or greater than, respectively, the proceeds originally received. Until the short sale is closed or the borrowed security is replaced, the Fund maintains a segregated account of cash or liquid securities, the dollar value of which is at least equal to the market value of the security at the time of the short sale.

Security transactions and income recognition

Securities transactions are recorded on a trade date basis. Realized gains or losses are recorded on the basis of identified cost.

Dividend income is recognized on the ex-dividend date, except for certain dividends from foreign securities, which are recorded as soon as the custodian verifies the ex-dividend date. Dividend income is recorded net of foreign taxes withheld where recovery of such taxes is not assured.

Distributions received from REIT investments may be characterized as ordinary income, capital gains, or a return of capital to the Fund based on information provided by the REIT. The proper characterization of REIT distributions is generally not known until after the end of each calendar year. As such, estimates may be used in reporting the character of income and distributions for financial statement purposes.

Distributions to shareholders

Distributions to shareholders from net investment income and any net realized gains are recorded on the ex-dividend date and paid at least annually. Such distributions are determined in accordance with income tax regulations and may differ from U.S. generally accepted accounting principles. Dividend sources are estimated at the time of declaration. The tax character of distributions is determined as of the Fund's fiscal year end. Therefore, a portion of the Fund's distributions made prior to the Fund's fiscal year end may be categorized as a tax return of capital at year end.

Federal and other taxes

The Fund intends to continue to qualify as a regulated investment company by distributing substantially all of its investment company taxable income and any net realized capital gains (after reduction for capital loss carryforwards) sufficient to relieve it from all, or substantially all, federal income taxes. Accordingly, no provision for federal income taxes was required.

The Fund's income and federal excise tax returns and all financial records supporting those returns for the prior three fiscal years are subject to examination by the federal and Delaware revenue authorities. Management has analyzed the Fund's tax positions taken on federal, state, and foreign tax returns, as applicable, for all open tax years and does not believe that there are any uncertain tax positions that require recognition of a tax liability.

As of October 31, 2023, the aggregate cost of all investments for federal income tax purposes was \$373,385,158 and the unrealized gains (losses) consisted of:

Gross unrealized gains	\$ 50,661,433
Gross unrealized losses	(49,016,308)
Net unrealized gains	\$ 1,645,125

Reclassifications are made to the Fund's capital accounts for permanent tax differences to reflect income and gains available for distribution (or available capital loss carryforwards) under federal income tax regulations. U.S. generally accepted accounting principles require that certain components of net assets be adjusted to reflect permanent differences between financial and tax reporting. These reclassifications have no effect on net assets or net asset values per share. At October 31, 2023, as a result of permanent book-to-tax differences, the following reclassification adjustments were made on the Statement of Assets and Liabilities:

	PAID-IN CAPITAL	TOTAL DISTRIBUTABLE LOSS
	\$35,923	\$(35,923)

As of October 31, 2023, the Fund had capital loss carryforwards which consist of \$18,699,103 in short-term capital losses.

Class allocations

The separate classes of shares offered by the Fund differ principally in applicable sales charges, distribution, shareholder servicing, and administration fees. Class specific expenses are charged directly to that share class. Investment income and expense, common fund-level expenses, and realized and unrealized gains (losses) on investments are allocated daily to each class of shares based on the relative proportion of net assets of each class.

3. FAIR VALUATION MEASUREMENTS

Fair value measurements of investments are determined within a framework that has established a fair value hierarchy based upon the various data inputs utilized in determining the value of the Fund's investments. The three-level hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The Fund's investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The inputs are summarized into three broad levels as follows:

- Level 1—quoted prices in active markets for identical securities
- Level 2—other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3—significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodologies used for valuing investments in securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used in valuing the Fund's assets and liabilities as of October 31, 2023:

	QUOTED PRICES (LEVEL 1)	OTHER SIGNIFICANT OBSERVABLE INPUTS (LEVEL 2)	SIGNIFICANT UNOBSERVABLE INPUTS (LEVEL 3)	TOTAL

Additional sector, industry or geographic detail, if any, is included in the Portfolio of Investments.

At October 31, 2023, the Fund did not have any transfers into/out of Level 3.

4. TRANSACTIONS WITH AFFILIATES

Management fee

Allspring Funds Management, a wholly owned subsidiary of Allspring Global Investments Holdings, LLC, a holding company indirectly owned by certain private funds of GTCR LLC and Reverence Capital Partners, L.P., is the manager of the Fund and provides advisory and fund-level administrative services under an investment management agreement. Under the investment management agreement, Allspring Funds Management is responsible for, among other services, implementing the investment objectives and strategies of the Fund, supervising the subadviser and providing fund-level administrative services in connection with the Fund's operations. As compensation for its services under the investment management agreement, Allspring Funds Management is entitled to receive a management fee at the following annual rate based on the Fund's average daily net assets:

AVERAGE DAILY NET ASSETS	MANAGEMENT FEE
First \$1 billion	1.250%
Next \$4 billion	1.225
Over \$5 billion	1.200

Prior to December 19, 2022, the Predecessor Fund paid an advisory fee to the predecessor investment advisor at an annual rate of 1.25% of its average daily net assets.

For the year ended October 31, 2023, the management fee was equivalent to an annual rate of 1.25% of the Fund's average daily net assets.

Administration fees

Under a class-level administration agreement, Allspring Funds Management provides class-level administrative services to the Fund, which includes paying fees and expenses for services provided by the transfer agent, sub-transfer agents, omnibus account servicers and record-keepers. As compensation for its services under the class-level administration agreement, Allspring Funds Management receives an annual fee which is calculated based on the average daily net assets of each class as follows:

	CLASS-LEVEL ADMINISTRATION FEE
Class A	0.20%
Class C	0.20
Class R6	0.03
Institutional Class	0.13

Prior to June 30, 2023, the class-level administration fee for Class A and Class C was 0.21% of its respective average daily net assets.

Waivers and/or expense reimbursements

Allspring Funds Management has contractually committed to waive and/or reimburse management and administration fees to the extent necessary to maintain certain net operating expense ratios for the Fund. When each class of the Fund has exceeded its expense cap, Allspring Funds Management will waive fees and/or reimburse expenses from fund-level expenses on a proportionate basis and then from class specific expenses. When only certain classes exceed their expense caps, waivers and/or reimbursements are applied against class specific expenses before fund-level expenses. Allspring Funds Management has contractually committed through February 28, 2025 to waive fees and/or reimburse expenses to the extent necessary to cap the Fund's expenses. Prior to or after the commitment expiration date, the caps may be increased or the commitment to maintain the cap may be terminated only with the approval of the Board of Trustees. As of October 31, 2023, excluding expenses from dividends on securities sold short and interest expense, the contractual expense caps are as follows:

	EXPENSE RATIO CAPS
Class A	1.72%
Class C	2.47
Class R6	1.30
Institutional Class	1.40

Prior to June 30, 2023, the Fund's expenses were capped at 1.73% for Class A and 2.48% for Class C. Prior to December 19, 2022, the Predecessor Fund's expenses were capped at 1.39% for Investor Class shares, 1.39% for Class Y shares and 1.39% for Class I shares. These expense caps did not include dividends on securities sold short or any class-level expenses.

Distribution fees

The Trust has adopted a distribution plan for Class C shares pursuant to Rule 12b-1 under the 1940 Act. A distribution fee is charged to Class C shares and paid to Allspring Funds Distributor, LLC ("Allspring Funds Distributor"), the principal underwriter, an affiliate of Allspring Funds Management, at an annual rate up to 0.75% of the average daily net assets of Class C shares. Prior to December 19, 2022, Investor Class shares of the Predecessor Fund were charged a fee at an annual rate up to 0.25% of its average daily net assets.

In addition, Allspring Funds Distributor is entitled to receive the front-end sales charge from the purchase of Class A shares and a contingent deferred sales charge on the redemption of certain Class A shares. Allspring Funds Distributor is also entitled to receive the contingent deferred sales charges from redemptions of Class C shares. For the year ended ended October 31, 2023, Allspring Funds Distributor received \$1,580 from the sale of Class A shares. No contingent deferred sales charges were incurred by Class A and Class C shares for the year ended October 31, 2023.

Shareholder servicing fees

The Trust has entered into contracts with one or more shareholder servicing agents, whereby Class A and Class C are charged a fee at an annual rate up to 0.25% of the average daily net assets of each respective class. A portion of these total shareholder servicing fees were paid to affiliates of the Fund. Prior to December 19, 2022, Investor Class and Class I shares of the Predecessor Fund were each charged a fee at an annual rate up to 0.15% of its respective average daily net assets.

Interfund transactions

The Fund may purchase or sell portfolio investment securities to certain affiliates pursuant to Rule 17a-7 under the 1940 Act and under procedures adopted by the Board of Trustees. The procedures have been designed to ensure that these interfund transactions, which do not incur broker commissions, are effected at current market prices. Pursuant to these procedures, the Fund did not have any interfund transactions during the year ended October 31, 2023.

5. INVESTMENT PORTFOLIO TRANSACTIONS

Purchases and sales of investments, excluding U.S. government obligations (if any) and short-term securities, for the year ended October 31, 2023 were \$2,289,822,196 and \$2,437,272,458, respectively.

6. BORROWINGS

The Trust (excluding the money market funds), Allspring Master Trust and Allspring Variable Trust are parties to a \$350,000,000 revolving credit agreement whereby the Fund is permitted to use bank borrowings for temporary or emergency purposes, such as to fund shareholder redemption requests. Interest under the credit agreement is charged to the Fund based on borrowing rate equal to the higher of the Federal Funds rate or the overnight bank funding rate in effect on that day plus a spread. In addition, an annual commitment fee based on the unused balance is allocated to each participating fund. For the year ended October 31, 2023, there were no borrowings by the Fund under this agreement.

In an agreement with a prime broker, the Fund purchased or borrowed securities on margin and was charged interest based on a borrowing rate equal to the Federal Funds rate plus a spread. During the year ended October 31, 2023, the Fund had average borrowings outstanding of \$81,234,438 at a rate of 4.29% and recorded interest in the amount of \$3,457,024, which represents 0.60% of its average daily net assets.

7. DISTRIBUTIONS TO SHAREHOLDERS

The tax character of distributions paid during the years ended October 31, 2023 and October 31, 2022 were as follows:

	YEAR ENDED OCTOBER 31	
	2023	2022
Ordinary income	\$5,800,584	\$ 3,285
Long-term capital gain	0	19,794,827

As of October 31, 2023, the components of distributable earnings on a tax basis were as follows:

UNDISTRIBUTED ORDINARY INCOME	UNREALIZED GAINS	CAPITAL LOSS CARRYFORWARD
\$12,436,555	\$1,539,500	\$(18,699,103)

8. INDEMNIFICATION

Under the Fund's organizational documents, the officers and Trustees have been granted certain indemnification rights against certain liabilities that may arise out of performance of their duties to the Fund. The Fund has entered into a separate agreement with each Trustee that converts indemnification rights currently existing under the Fund's organizational documents into contractual rights that cannot be changed in the future without the consent of the Trustee. Additionally, in the normal course of business, the Fund may enter into contracts with service providers that contain a variety of indemnification clauses. The Fund's maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated.

9. CHANGE IN INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Prior to December 16, 2022, Tait, Weller & Baker LLP was the independent registered public accounting firm for the Predecessor Fund. As a result of the Fund's acquisition of the Predecessor Fund, KPMG LLP became the Fund's independent registered public accounting firm.

The reports of the financial statements audited by Tait, Weller & Baker LLP for each of the years in the four-year period ended October 31, 2022 did not contain an adverse opinion or disclaimer of opinion, and were not qualified or modified as to uncertainty, audit scope or accounting principles. There were no disagreements or reportable events between the Predecessor Fund and Tait, Weller & Baker LLP on any matters of accounting principles or practices, financial statement disclosure, or auditing scope or procedures, which disagreements, if not resolved to the satisfaction of Tait, Weller & Baker LLP, would have caused it to make reference to the subject matter of the disagreements in connection with its reports on the financial statements of such years.

To the Shareholders of the Fund and Board of Trustees Allspring Funds Trust:

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of Allspring Global Long/Short Equity Fund (the Fund), one of the funds constituting Allspring Funds Trust, including the portfolio of investments, as of October 31, 2023, the related statements of operations, changes in net assets, and cash flows for the year then ended, and the related notes (collectively, the financial statements) and the financial highlights for the year then ended. In our opinion, the financial statements and financial highlights present fairly, in all material respects, the financial position of the Fund as of October 31, 2023, the results of its operations, changes in its net assets, its cash flows, and the financial highlights for the year then ended, in conformity with U.S. generally accepted accounting principles.

The statement of changes in net assets for the year ended October 31, 2022 and the financial highlights for the four years ended October 31, 2022, were audited by other independent registered public accountants whose report, dated December 30, 2022, expressed an unqualified opinion on that financial statement and those financial highlights.

Basis for Opinion

These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statements and financial highlights, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements and financial highlights. Such procedures also included confirmation of securities owned as of October 31, 2023, by correspondence with the custodian, transfer agent and brokers. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements and financial highlights. We believe that our audit provides a reasonable basis for our opinion.

KPMG LLP

We have not been able to determine the specific year that we began serving as the auditor of one or more Allspring Funds investment companies; however, we are aware that we have served as the auditor of one or more Allspring Funds investment companies since at least 1955.

Boston, Massachusetts
December 27, 2023

Other information

Tax information

For corporate shareholders, pursuant to Section 854 of the Internal Revenue Code, 84% of ordinary income dividends qualify for the corporate dividends-received deduction for the fiscal year ended October 31, 2023.

Pursuant to Section 854 of the Internal Revenue Code, \$5,800,584 of income dividends paid during the fiscal year ended October 31, 2023 has been designated as qualified dividend income (QDI).

Proxy voting information

A description of the policies and procedures used to determine how to vote proxies relating to portfolio securities is available without charge, upon request, by calling **1-866-259-3305**, visiting our website at **allspringglobal.com**, or visiting the SEC website at sec.gov. Information regarding how the proxies related to portfolio securities were voted during the most recent 12-month period ended June 30 is available on the website at **allspringglobal.com** or by visiting the SEC website at sec.gov.

Quarterly portfolio holdings information

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year as an exhibit to its reports on Form N-PORT. Shareholders may view the filed Form N-PORT by visiting the SEC website at sec.gov.

Board of trustees and officers

Each of the Trustees and Officers listed in the table below acts in identical capacities for each fund in the Allspring family of funds, which consists of 126 mutual funds comprising the Allspring Funds Trust, Allspring Variable Trust, Allspring Master Trust and four closed-end funds (collectively the “Fund Complex”). This table should be read in conjunction with the Prospectus and the Statement of Additional Information¹. The mailing address of each Trustee and Officer is 1415 Vantage Park Drive, 3rd Floor, Charlotte, NC 28203. Each Trustee and Officer serves an indefinite term, however, each Trustee serves such term until reaching the mandatory retirement age established by the Trustees.

Independent Trustees

MATTHEW PRASSE (Born 1983)	Chief Legal Officer, since 2022; Secretary, since 2021	Senior Counsel of the Allspring Legal Department since 2021. Senior Counsel of the Wells Fargo Legal Department from 2018 to 2021. Previously, Counsel for Barings LLC from 2015 to 2018. Prior to joining Barings, Associate at Morgan, Lewis & Bockius LLP from 2008 to 2015.

¹ For those Officers with tenures at Allspring Global Investments and/or Allspring Funds Management, LLC that began prior to 2021, such tenures include years of service during which these businesses/entities were known as Wells Fargo Asset Management and Wells Fargo Funds Management, LLC, respectively.

Board consideration of investment management and sub-advisory agreements:

Under the Investment Company Act of 1940 (the “1940 Act”), the Board of Trustees (the “Board”) of Allspring Funds Trust (the “Trust”) must determine annually whether to approve the continuation of the Trust’s investment management and sub-advisory agreements. In this regard, at a Board meeting held on May 15-17, 2023 (the “Meeting”), the Board, all the members of which have no direct or indirect interest in the investment management and sub-advisory agreements and are not “interested persons” of the Trust, as defined in the 1940 Act (the “Independent Trustees”), reviewed and approved for the Allspring Global Long/Short Equity Fund (the “Fund”): (i) an investment management agreement (the “Management Agreement”) with Allspring Funds Management, LLC (“Allspring Funds Management”); and (ii) an investment sub-advisory agreement (the “Sub-Advisory Agreement”) with Allspring Global Investments, LLC (the “Sub-Adviser”), an affiliate of Allspring Funds Management. The Management Agreement and the Sub-Advisory Agreement are collectively referred to as the “Advisory Agreements.”

At the Meeting, the Board considered the factors and reached the conclusions described below relating to the selection of Allspring Funds Management and the Sub-Adviser and the approval of the Advisory Agreements. Prior to the Meeting, including at a Board meeting held in April 2023, and at the Meeting, the Trustees conferred extensively among themselves and with representatives of Allspring Funds Management about these matters. The Board has adopted a team-based approach, with each team consisting of a sub-set of Trustees, to assist the full Board in the discharge of its duties in reviewing investment performance and other matters throughout the year. The Independent Trustees were assisted in their evaluation of the Advisory Agreements by independent legal counsel, from whom they received separate legal advice and with whom they met separately.

In providing information to the Board, Allspring Funds Management and the Sub-Adviser were guided by a detailed set of requests for information submitted to them by independent legal counsel on behalf of the Independent Trustees at the start of the Board’s annual contract renewal process earlier in 2023. In considering and approving the Advisory Agreements, the Trustees considered the information they believed relevant, including but not limited to the information discussed below. The Board considered not only the specific information presented in connection with the Meeting, but also the knowledge gained over time through interactions with Allspring Funds Management and the Sub-Adviser about various topics. In this regard, the Board reviewed reports of Allspring Funds Management at each of its quarterly meetings, which included, among other things, portfolio reviews and investment performance reports. In addition, the Board and the teams mentioned above confer with portfolio managers at various times throughout the year. The Board did not identify any particular information or consideration that was all-important or controlling, and each individual Trustee may have attributed different weights to various factors.

After its deliberations, the Board unanimously determined that the compensation payable to Allspring Funds Management and the Sub-Adviser under each of the Advisory Agreements was reasonable, and approved the continuation of the Advisory Agreements for a one-year term. The Board considered the approval of the Advisory Agreements for the Fund as part of its consideration of agreements for funds across the complex, but its approvals were made on a fund-by-fund basis. The following summarizes a number of important, but not necessarily all, factors considered by the Board in support of its approvals.

Nature, extent, and quality of services

The Board received and considered various information regarding the nature, extent, and quality of services provided to the Fund by Allspring Funds Management and the Sub-Adviser under the Advisory Agreements. This information included a description of the investment advisory services and Fund-level administrative services covered by the Management Agreement, as well as, among other things, a summary of the background and experience of senior management of Allspring Global Investments, of which Allspring Funds Management and the Sub-Adviser are a part, and a summary of investments made in the Allspring Global Investments business. The Board also considered information about retention arrangements with respect to key personnel of Allspring Global Investments that were put in place in connection with the sale of Wells Fargo Asset Management to Allspring Global Investments Holdings, LLC,¹ a holding company indirectly owned by certain private funds of GTCR LLC and Reverence Capital Partners, L.P. (the “Transaction”). The Board took into account information about the services that continue to be provided by Wells Fargo & Co. and/or its affiliates (“Wells Fargo”) since the Transaction under a transition services agreement and the anticipated timeline for exiting the transition services agreement. In addition, the Board received and considered information about the full range of services provided to the Fund by Allspring Funds Management and its affiliates.

The Board considered the qualifications, background, tenure, and responsibilities of each of the portfolio managers primarily responsible for the day-to-day portfolio management of the Fund. The Board evaluated the ability of Allspring Funds Management and the Sub-Adviser to attract and retain qualified investment professionals, including research, advisory, and supervisory personnel.

The Board further considered the compliance programs and compliance records of Allspring Funds Management and the Sub-Adviser. The Board received and considered information about Allspring Global Investments’ risk management functions, which included information about Allspring Funds Management’s and the Sub-Adviser’s business continuity plans, their approaches to data privacy and cybersecurity, and Allspring Funds Management’s

¹ The trade name for the asset management firm that includes Allspring Funds Management and the Sub-Adviser is “Allspring Global Investments.”

role as administrator of the Fund's liquidity risk management program, and the Fund's derivatives risk management program. The Board also received and considered information about Allspring Funds Management's intermediary and vendor oversight program.

Fund investment performance and expenses

The Board noted that the Fund had recently been established to acquire the assets and liabilities of the 361 Global Long/Short Equity Fund (the "361 Fund"), which was sub-advised by the Sub-Adviser using the same investment objective and principal investment strategy as the Fund. As such, the Board considered the investment performance results for the Fund and the 361 Fund, as applicable, over various time periods ended December 31, 2022. The Board considered these results in comparison to the investment performance of funds in a universe that was determined by Broadridge Inc. ("Broadridge") to be similar to the Fund (the "Universe"), and in comparison to the Fund's benchmark index and to other comparative data. Broadridge is an independent provider of investment company data. The Board received a description of the methodology used by Broadridge to select the mutual funds in the performance Universe. The Board noted that the investment performance of the Fund (Institutional Class) was lower than the average investment performance of the Universe for all periods under review. The Board also noted that the investment performance of the Fund was higher than the investment performance of its benchmark index, the MSCI World Index (Net) (USD), for the one-year period under review and lower than the benchmark index for the three- and five-year periods under review.

The Board received information concerning, and discussed factors contributing to, the underperformance of the Fund relative to the Universe and benchmark for the periods identified above. The Board took note of the explanations for the relative underperformance during these periods, including with respect to investment decisions and market factors that affected the Fund's investment performance. The Board also took note of the Fund's outperformance relative to the Universe and benchmark over the longer time periods under review.

The Board also received and considered information regarding the Fund's net operating expense ratios and their various components, including actual management fees, custodian and other non-management fees, and Rule 12b-1 and non-Rule 12b-1 shareholder service fees. The Board considered these ratios in comparison to the median ratios of funds in class-specific expense groups that were determined by Broadridge to be similar to the Fund (the "Groups"). The Board received a description of the methodology used by Broadridge to select the mutual funds in the expense Groups and an explanation of how funds comprising expense groups and their expense ratios may vary from year-to-year. Based on the Broadridge reports, the Board noted that the net operating expense ratios of the Fund were lower than or in range of the median net operating expense ratios of the expense Groups for each share class. The Board noted that Allspring Funds Management had agreed to reduce the net operating expense caps for the Fund's Class A shares.

The Board took into account the Fund's investment performance and expense information provided to it among the factors considered in deciding to re-approve the Advisory Agreements.

Investment management and sub-advisory fee rates

The Board reviewed and considered the contractual fee rates payable by the Fund to Allspring Funds Management under the Management Agreement, as well as the contractual fee rates payable by the Fund to Allspring Funds Management for class-level administrative services under a Class-Level Administration Agreement, which include, among other things, class-level transfer agency and sub-transfer agency costs (collectively, the "Management Rates"). The Board also reviewed and considered the contractual investment sub-advisory fee rates that are payable by Allspring Funds Management to the Sub-Adviser for investment sub-advisory services. It was noted that advisory fee waivers, if any, are at the fund level and not class level.

Among other information reviewed by the Board was a comparison of the Fund's Management Rates with the average contractual investment management fee rates of funds in the expense Groups at a common asset level as well as transfer agency costs of the funds in the expense Groups. The Board noted that the Management Rates of the Fund were lower than or in range of the sum of these average rates for the Fund's expense Groups for all share classes.

The Board also received and considered information about the portion of the total management fee that was retained by Allspring Funds Management after payment of the fee to the Sub-Adviser for sub-advisory services. In assessing the reasonableness of this amount, the Board received and evaluated information about the nature and extent of responsibilities retained and risks assumed by Allspring Funds Management and not delegated to or assumed by the Sub-Adviser, and about Allspring Funds Management's on-going oversight services. Given the affiliation between Allspring Funds Management and the Sub-Adviser, the Board ascribed limited relevance to the allocation of fees between them.

Based on its consideration of the factors and information it deemed relevant, including those described here, the Board determined that the compensation payable to Allspring Funds Management under the Management Agreement and to the Sub-Adviser under the Sub-Advisory Agreement was reasonable.

Profitability

The Board received and considered information concerning the profitability of Allspring Funds Management, as well as the profitability of Allspring Global Investments, from providing services to the fund complex as a whole. The Board noted that the Sub-Adviser's profitability information with respect to providing services to the Fund and other funds in the complex was subsumed in the Allspring Global Investments profitability analysis.

Allspring Funds Management reported on the methodologies and estimates used in calculating profitability, including a description of the methodology used to allocate certain expenses and differences in how Allspring Global Investments calculates its pre-tax profit metric versus the methodology used when Allspring Funds Management was part of Wells Fargo. It was noted that the impact of such differences had only minor impact on the financial results presented. Among other things, the Board noted that the levels of profitability reported on a fund-by-fund basis varied widely, depending on factors such as the size, type, and age of fund.

Based on its review, the Board did not deem the profits reported by Allspring Funds Management or Allspring Global Investments from services provided to the Fund to be at a level that would prevent it from approving the continuation of the Advisory Agreements.

Economies of scale

The Board received and considered information about the potential for Allspring Funds Management to experience economies of scale in the provision of management services to the Fund, the difficulties of calculating economies of scale at an individual fund level, and the extent to which potential scale benefits are shared with Fund shareholders. The Board noted the existence of breakpoints in the Fund's management fee structure, which operate generally to reduce the Fund's expense ratios as the Fund grows in size, and the size of the Fund in relation to such breakpoints. The Board considered that in addition to management fee breakpoints, Allspring Funds Management shares potential economies of scale from its management business in a variety of ways, including through fee waiver and expense reimbursement arrangements, competitive management fee rates set at the outset without regard to breakpoints, and investments in the business intended to enhance services available to shareholders.

The Board concluded that Allspring Funds Management's arrangements with respect to the Fund, including contractual breakpoints, constituted a reasonable approach to sharing potential economies of scale with the Fund and its shareholders.

Other benefits to Allspring Funds Management and the Sub-Adviser

The Board received and considered information regarding potential "fall-out" or ancillary benefits received by Allspring Funds Management and its affiliates, including the Sub-Adviser, as a result of their relationships with the Fund. Ancillary benefits could include, among others, benefits directly attributable to other relationships with the Fund and benefits potentially derived from an increase in Allspring Funds Management's and the Sub-Adviser's business as a result of their relationships with the Fund. The Board noted that Allspring Funds Distributor, LLC, an affiliate of Allspring Funds Management, receives distribution-related fees in respect of shares sold or held through it.

The Board also reviewed information about soft dollar credits earned and utilized by the Sub-Adviser and fees earned in the past by Allspring Funds Management and the Sub-Adviser from managing a private investment vehicle for the fund complex's securities lending collateral.

Based on its consideration of the factors and information it deemed relevant, including those described here, the Board did not find that any ancillary benefits received by Allspring Funds Management and its affiliates, including the Sub-Adviser, were unreasonable.

Conclusion

At the Meeting, after considering the above-described factors and based on its deliberations and its evaluation of the information described above, the Board unanimously determined that the compensation payable to Allspring Funds Management and the Sub-Adviser under each of the Advisory Agreements was reasonable, and approved the continuation of the Advisory Agreements for a one-year term.

Liquidity risk management program

In accordance with Rule 22e-4 under the Investment Company Act of 1940, as amended (the “Liquidity Rule”), Allspring Funds Trust (the “Trust”) has adopted and implemented a liquidity risk management program (the “Program”) on behalf of each of its series (other than the series that operate as money market funds), including the Fund, which is reasonably designed to assess and manage the Fund’s liquidity risk. “Liquidity risk” is defined under the Liquidity Rule as the risk that the Fund is unable to meet redemption requests without significantly diluting remaining investors’ interests in the Fund. The Trust’s Board of Trustees (the “Board”) previously approved the designation of Allspring Funds Management, LLC (“Allspring Funds Management”), the Fund’s investment manager, to administer the Program, and Allspring Funds Management has established a Liquidity Risk Management Council (the “Council”) composed of personnel from multiple departments within Allspring Funds Management and its affiliates to assist Allspring Funds Management in the administration of the Program.

The Program is comprised of various components designed to support the assessment and/or management of liquidity risk, including: (1) the periodic assessment (no less frequently than annually) of certain factors that influence the Fund’s liquidity risk; (2) the periodic classification (no less frequently than monthly) of the Fund’s investments into one of four liquidity categories that reflect an estimate of their liquidity under current market conditions; (3) a 15% limit on the acquisition of “illiquid investments” (as defined under the Liquidity Rule); (4) to the extent the Fund does not invest primarily in “highly liquid investments” (as defined under the Liquidity Rule), the determination of a minimum percentage of the Fund’s assets that generally will be invested in highly liquid investments (an “HLIM”); (5) if the Fund has established an HLIM, the periodic review (no less frequently than annually) of the HLIM and the adoption of policies and procedures for responding to a shortfall of the Fund’s “highly liquid investments” below its HLIM; and (6) periodic reporting to the Board.

At a meeting of the Board held on May 16-17, 2023, the Board received and reviewed a written report (the “Report”) from Allspring Funds Management that, among other things, addressed the operation of the Program and assessed its adequacy and effectiveness for the period from January 1, 2022 through December 31, 2022 (the “Reporting Period”). The Report noted significant liquidity events impacting the Funds related to extended foreign market holidays as well as the difficulty of trading and settlement of most Russia-related securities due to sanctions activity. The Report noted that there were no material changes to the Program during the Reporting Period.

Allspring Funds Management determined in the Report that the Program has been implemented and operates effectively to manage each Fund’s, including the Fund’s, liquidity risk, and Allspring Funds Management continues to believe that the Program has been and continues to be adequately and effectively implemented to monitor and, as applicable, respond to the Fund’s liquidity developments.

There can be no assurance that the Program will achieve its objectives under all circumstances in the future. Please refer to the Fund’s prospectus for more information regarding the Fund’s exposure to liquidity risk and other risks to which an investment in the Fund may be subject.
